

MERICANS OF THE FOURTH

The members of the American party in the Pourth Ward are requested to report themselves at Temperance Hall on Thursday evening next,

24th inst., at 7 o'clock.

The members of the party in all the Wards will report themselves as above.

Moss Destaurtion.—On Saturday night, be-tween eleven and twelve o'clock, a party of rowdies, supposed to be a band of "Regulators," alias members of the States Hose organization, broke open the Truck house of the American Hook and Ladder Company, took therefrom their beautiful Truck and broke it into pieces, cutting off two of the wheels, breaking the spokes in the other two, masking the tongue, and otherwise breaking and injuring the property of the Company.

We had hoped that this lawless band of deperat men, associated together for the worst and basest of purposes, who have for many months been the moyance and terror of the citizens of Washing this locality, inasmuch as the Government of the United States had manifested a determination to put an end to the disgraceful and murdesous acts committed by them, and to rid the community of their unwholesome presence. But it seems we have, again, been disappointed.

The Democratic press of Washington, has le bered hard to convince the people of the District and of the country, that the majority of these outrages have been committed by members of the if this last act of villainous outrage against the property of an American company, is heralded th to the world as the act and deed of members of that company. Such is, and ever has been, the policy of the Democratic party, even in its more palmy days, and we cannot and do not expect anything from the present sham organization, who have, in the name of Democracy, perpetrated more wrongs and outrages against the p ople, cheating them of their rights at the ballot box, squandering their money, and by fraud, peculation and barefaced robbery, putting into their own pockets more than twenty millions of the money paid into the Treasury by the people of the country, in the short space of one year. We expect nothing but wrong and outrage from this quarter, and we have received nothing but outrage and wrong from the Democratic city government, which was inaugurated by deeds of blood, and which would perpetuate "the reign of terror," which was begun on the first of June last, the never to be forgotten day of blood, well christened "Bloody Monday" by a member of the party which perpetrated the cold-blooded murders on that eventful day.

We had hoped, we say, that this combination of wickedness, had left the City of Washington, or rather that the members composing it, had gone to parts unknown, in view of the punish nent certain to be visited upon them at the hands of the President—the city administration failing or neglecting, or incompetent to perform its duty in this respect—but it seems the snake is only scotched, killed. It is true, that for weeks past, ou city has been comparatively orderly and quiet, and great pains have been taken to spread far and wide the news, that Washington City was rid of the pestilential presence of an organization which had endered a residence here dangerous to limb and life, and which might prevent many from locating themselves here, or even becoming residents during the session of Congress. This would have been injurious to the interests of the city, and as modern Democrats are incapable of doing anything prejudicial to their interests, they, of course, gave credit to the Mayor for his indefatigable findustry and untiring zeal in ridding the city of the pesti lence. So much for self-interest. As to the rest, we know that the disease is not eradicated—that the destructive element is still here, and in proof, we offer the transactions of Saturday night,"

Firs.-Walking on Pennsylvania Avenue the other day, we were smused by the interest manifested by a group of young men in the movements of an individual, a stranger to us and to them, as "There's the very thing you want, Brown! Is'nt

it beautiful? Never saw a neater or better fit in

"It is a splendid suit. I declare. Look you boys, -an oyster supper to all hands, if any one of you will ascertain who made that suit of clothes! "Done-done.-I'll find out in as moment,"

said one of them. "Just wait a bit," and off be started to overtake the stranger, who was a little listance shead of them, the rest watching eagerly

He approached the stranger, entered into conver sation with him, and soon returned, smiling to his friends, with the information, that if any of them riends, with the international fitting suit of clothes, they would certainly obtain them by ordering them of WELCH & WILSON, Georgetown, who are the acknowledged best fitters in that ancient and honorable city. They are noted for their fits-never failing to call forth the admiration of beholders. and always giving unalloyed satisfaction to their Baw-if you please.

WILLIAM H. TENNEY, of Georgetown, dealer in Flour, Butter, Buckwheat, Fish, Sugar, Molasses, and every thing else that constitutes a first class Grocery, offers for sale, at reduced prices, the various atticles in which he trades. For an enumeration of a few of them, see advertisement. We are not, personally, acquainted with Mr. T., (the more unfortunate for us) but we know intimately, scores that are, and we know that what they say is true, and they say that what Mr. T. says, he means Now reader if you want fresh goods-goods that are just what they are represented to be, both as regards quality and price, you know where to go to get them. If, after this, you purchase anything that is stale and unprofitable, you cannot blame

us. Go to Tenneys. THIEVES .- The neighborhood of the Park, out Seventh Street, was visited on Monday night last, by a gang of thieves, who completely denuded the localities of chickens, geese, ducks, and of everything they could lay their hands on. They stole one poor woman's clothes, all that she had, save what were upon the backs of horself and children.

Mrs. Minicker, is a widow, and the loss of all her clothes will be severely felt. In the yard was found a long dirk knife, which has been placed in the hands of an officer, and may lead to the detection of the thief or thieves.

Boars or Albranes.—In this body a bill was resented and passed offering a reward of \$100 for the arrest and conviction of the parties who wantonly destroyed the Truck of the American Hook,
and Ladder Company on Saturday night.

On motion to reconsider the vote by which the
bill reorganizing the Fire Department was lost—
the Board refused to reconsider.

Several bills making appropriations for deficiencies were passed.

cies were passed.

Another bill was presented from Committee on Another bill was presented from Committee on Improvements, asking for an appropriation of six hundred dollars to pay deficiency for grading and gravelling Twenty-first street. Upon inquiry it was discovered that no appropriation had been made—no authority given for the prosecution of this work—that the job had been given out by the Mayor without authority of law—that money had been taken out of the treasury therefor, and now, the sum of \$600 was asked for to pay balance due. The bill was laid upon the table. Who authorized the prosecution of this work? Who? In the lower Board, Mr. Hutchi son stated that between 11 and 12 o'clock on Saturday night, twenty or more men, armed with bright muskets,

twenty or more men, armed with bright muskets, entered the Truck House of the American Hook and Ladder Company, drove out the watchmen, firing at them as they retreated one of the balls passing between the legs of one of them and cutpassing between the legs of one of them and cutting away a portion of his coat tail. A long and stormy debate spring up upon the propriety of passing the resolution offering a reward of \$100 for the arrest, &c., of the perpetrators of this outrage. It was opposed on the ground of economy—the comparative frivolousness of the offeric—and from the fact, as was asserted, that the origin of the bill might be traced to political rancor-that the motive of the mover was revenge upon political enemies, &c., &c. The resolution was finally laid upon the table for one week, when, if, in the meantime, the authors of the outrage are not taken up, the bill will be.

CENTRE MARKET.-We have much satisfaction recommending to the public the widow Bohlayer & Sons, whose stalls are located at the eastern end of this market. They are dealers in pork, puddings, sausages, and other necessary and most excellent articles of food. Those who purchase of her or her sons may rely upon getting good, wholesome meat, and their puddings and sausages are always excellent. Buckwheat cakes and Bohlayer's sausage, with plenty of gravy, or some of Yateman's butter, make a dish, such as only the soureigns of America know how to appreciate. Talk about your French cookery! One of Bullayer's mutton chops, flanked by a dish of buckwh eat cakes, made of the flour you purchase of Clark & Brother, at the east end of Centre Market, not forgetting to have them well greased with the butter before mentioned, is worth all the French dishes and condiments we ever read of. It is even so.

A gentleman, on a visit to Baltimore lately conversation with one intimately acquainted with the movements of members of the Anti-American party in that place, was told that when a deed of blood was committed by any one of them -such as shooting an American—the party immediately left for Washington, to obtain protection, and that there were already in Washington about four hundred enjoying that protection which they could not find in Baltimore.

This needs no comment.

CONGRESS AND JOHNSON'S VOTING MACRINE. - As there is so much just now said and written about the decorations, conveniences, magnificence and artistic skill displayed in the finish of the two halls of Congress, we think we can suggest something that for use, --permanent use-convenience, time and labor saving, and its almost infalibility far supasses all the grandeur that meets the eye in and about the Capitol. It is Henry Johnson's (of Washington city) invention for taking the vote in as has been said almost infalibility, is the wonder of all who have seen its operation.

We regard it as one of the greatest triumphs of invention and originality the present age can boast of, and why Congress does not have it introduced into their new halls, and thus complete every requsite, is something that no good and round reason can be assigned for. It would relieve the clerk of an immense amount of labor, and as a distinguished Professor has said, "well made machinery is more accurate than the mind of man"-it is reasonable to suppose that the mistakes which generally occur in taking the vote would be averted, and perfection and accuracy would be thus obtained. The inven-tor will oblige himself to keep it in perfect order

for ten years for ten cents. The inventor requests us to invite every member of Congress or any other person to forward to him any and all objections against its introduction and use in legislative bodies, and he will be obliged to them. His address is K St. No. 411, Washington, D. C. More upon this subject hereafter.

MR. Epiron: What do you think? Conversing the other day with a would be leader in the modern Democratic party upon the subject of the adoption or rejection of the new code, and learning that I intended to vote against it, he very confidently remarked, (with a significant toss of the bead,) That it was a matter of no moment, whether the people approved or rejected the code, as Congress has the exclusive right and power in the premises, and they would, he well knew, exercise that power and pass it irrespective of the voice of the people.

If such is to be its destiny, what a farce then to say the people of this District may vote upon it! Such would indeed be another Kansas coup d' état. Oh, consistent, harmonious, immagniate modern Democracy, thou indeed swingeth upon golden hinges. Gold!! yes nothing else but gold!!! is thy

companion, or is worthy to be.

It is said this would-by leader is a member of the levy-court, bence it is supposed his advocacy for power and self aristocracy. He has no respect for other people's opinions or rights! no not even comb on civilities while in conversation. He roars like alion, damns and calls every person a fool, &c., &c., who does not happen to think as he does, or will not do his bidding. This head-up-main-and-tailerect nag, it is thought, will, before long come to a stand, and perhaps will take time and survey the course he has been or is running.

Now, to suppose that Congress would stoop so ow as to listen to the counsel of such diseased minds, would be to say that the members thereof, themselves, were afflicted with the mania a potu or some other more terrible malady.

A JACKSON DEMOCRAT CONSUMPTION OF GAS.—It has been estimated that the gas consumed in lighting the new hall of the House of Representatives will be 8,000 feet per hour—the cost of which at the present rates will be \$25.

The funeral of Mrs. Grater and Mrs. Keam, who were murdered in Lancaster County, a short time since, took place on Thursday last. Two negresses have been identified as the murderers. Four hundred carriages were in the procession. It is supposed to have been the largest funeral procession ever seen in the [From the Detroit (Mich.) Free Press.]

From the Detroit (Mich.) Free Press.]

Senator Douglas' Great Speech.

We undertake to declare that no position of the speech of Senator Douglas, which we spread before our readers in our last issue, can be successfully assailed. It is not only a complete and thorough and incontrovertible exposition of the doctrine of popular sovereignty, as annunciated by the Kansas organic act, but removes the foun lation upon which the Lecompton Convention has been made to rest, and brings that structure in ruins to the ground.

The Democratic party must continue to stand upon the doctrine of popular sovereignty, as interpreted by Senator Douglas, or it, too, will fall in ruins to the ground. It has cost much to establish that doctrine. The Democracy of the North have made tremendous sacrifices to wipe out the Congressional restriction which prohibited the people of Kansas from forming and regulating all their domestic institutions in their own way. They cannot and will not permit its significance and scope to be abridged. They will maintain it, or, if they do not, they will commit suicide.

We believe we can speak for Michigan, if not for the Northwest. Here in Michigan we only need the preservation of the doctrine of popular sovereignty intact, and we will sweep black republicanism from the face of the land at the next contest. And there is really but one sentiment here regarding the posture of affairs. The unaninity in this city is wonderful, and our advices from the interior assure us that the city is an index of the whole State. If we can sely upon our Democratic cotemporaries, the Democracy of the entire Northwest are impelled by one include.

Then look at Kansas! Every newspaper in the Territory, save one, protesse against the admission ender the Lecompton fraud, and these papers asseverate that nine-tenths of the prople protest against it. They protest against the violation of the doctrine of popular sovereignty in their case, and in no other case.

Pursuant to a call, a meeting of the Democracy ator Douglas' Great Speech.

nd in no other case.

Pursuant to a call, a meeting of the Democracy convened at the City Hall last evening, for the purpose of re-affirming the great doct ine of popular sovereignty, and taking steps towards a State convention of the Democracy, to be held at an early day, for the purpose of a thorough organization of the party. The City Hall was tilled at an early hour, and the meeting was organized by the appointment of Alderman Dyson as Chairman, and

Mr. Charles W. Chapel moved that the Chair appoint a committee of five to draft resolutions expressive of the sease of the meeting and report

expressive of the sense of the meeting and report accord ngly.

The Chair appointed the following gentlemen such committee:—Messrs. Charles W. Chapel, J. Logan Chipman, George V. N. Lothorp, S. Dow Elwood and Thomas McEntee.

The Committee retired, and after a short absince returned and reported, by the Chairman, Mr. Chapel, the following resolutions, which were lead by the clerk:—

read by the clerk:—

Resolved, That the Democracy of the City of Detroit will in no wise depart from, but will resolutely
and immovably adhere to, the doctrines of popular
sovereignty enunciated by the Kansas-Nebraska

Resolved, That the true intent and meaning of that bill was to leave the people of Kansas and Nebraska perfectly free to form and regulate the r domestic institutions in their own way, subject only to the Constitution of the United States.

only to the Constitution of the United States.

Resolved, That the domestic institutions of a political community about to enter the Union as a State embrace not only the question of slavery, but the executive, legislative and judicial departments of the Government, the finance, taxation and education of the people, and all other things relating to their local government.

Resolved, That the speech of Stephen A. Douglas, delivered in the Senate of the United States on the 2014 day of December last is a charge on the

ou the 9th day of December last, is a char, con-clusive and unassailable exposition of the doctrine of popular sovereignty as enunciated by the Kansas-Nebraska act, and that the Democracy of the City of Det oit tender to Sephen A. Douglas their thanks for the promptness with which he has pro-nounced this exposition.

Resolved, That we have unabated confidence in

the integrity of James Buchanan; that we approve and admire every act of his administration thus far, save his interpretation in his late message, of the popular sovereignty clause of the Kansas Ne-braska act; and that we have no other expectation than that the future course of his administration will be such as all good Democrats can applaud

Resolved, That in the opinion of this meeting it cracy of this State be held at an early day, to take measures for the more thorough organization of the Democratic party; and that, to that end, the President of this meeting is requested to appoint a committee of ten persons, who shall have autho-rty to call such convention at a suitable time and

place.

ROMANTIC.—Twenty-nve years ago, (in 1831) two brothers, named Wright, machinists, were working at Dayton, and one of them became attached to a young girl named Muntz, who was then living in the family of a Mr. Wm. Machir. The two brothers afterwards worked for Ross, Winans & Co., of Baltimore, and finally became interested in the spormous contracts of that firm interested in the enormous contracts of that firm for stocking the St. Petersburg and Moscow Railroad, went out there and both became very rich. Ten years ago the brother who was interested in Miss Muntz died in London leaving her by his will \$10,000. Miss Muntz left Dayton for Preble county years ago, and though she has been adver-tised for, has not come forward to claim the legacy. The surviving brother was at Dayton last week, and left there for Eaton, hoping to hear some tidings of her.—Cincinnati Gusette.

Commenting on the reason given by Mr. Buchanan for approving the infamous proceedings of the Kansas Convention, the Louisville Journal uses the following language:

ings of the Kansas Convention, the Louisville Journal uses the following language:

"Did ever any sane man with the slightest pretensions to honesty quibble in this way on so momentous a subject before? The convention has acted properly enough, says Mr. Buchanan, because, under the Kansas-Nebraska law, the people of the Territories have the right "to form and regulate" merely "their domestic institutions in their own way," and slavery, the only domestic institution about which there has been any serious question, is really the only one contemplated by the law. That is, in Mr. Buchanan's present judgm-nt, the people of the Territories, under the Kansas-Nebraska law, have no right "to form and regulate" their political institutions "in their own way," and only one of their "domestic institutions." They are left free, under the President's construction of the Kansas-Nebraska law, "to form and regulate" the domestic institution of slavery "in their own way," but, as they haven't quarreled about any other, and as political institutions are not mentioned in the law, they have no right "to form an I regulate" any other institution whatever. A beautiful version of the right of self government! And this is the ridiculous and despicable figure to which the great principle of popular sovereignty, for the establishment of which the nation was lashed into a terrific fury of passion, has dwindled in one short year, under the administration of its own friends. So vart and impudent a "fizzle" the world has never seen." friends. So vast and impudent a "fizzle" world has never seen."

The fine summer hotel at Ronkonkoma Pond, just north of the Lakeland station, L. I., was burned to the ground on Tuesday, with nearly all its

The Ecie Railroad company baving reduced the wages of laborers to ninety cents a day, there was a temporary strike and some disturbance, but work has been resumed. The reduction was part of a general system of economy. The President of the company, being in the receipt of \$25,000 per annum, could afford a reduction of ten per ent., and still be extravagantly paid.

There has been a large arrival of grain at Osrego by the vessels which were detained by ice in the Welland Canal. They contained 101,200 bushels of wheat, and 16,000 bushels of corn.

United States Agricultural Society.

THE UNITED STATES AGRICULTURAL Society will hold its Sixth Annual Meeting in the Lectore Room of the Smithsonian Institution, at Washington city, on Wednesday, the 18th day of January, 1855, when the election of officers will then be held, and the business required by the constitution of the Society will be transacted.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

AS A FAMILY PHYSIC.

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperion, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more affectual for the cure of billious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

the confidence of the profession and the people."

DYSPERSIA — INDIGESTION.

From Dr. Henry J. Evez, of St. Losis.

"The PRILS you were kind enough to send me have been all used in my practice, and have entistled me that they are truly en extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alons. I have cured some cases of dispension and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally bund them to be effectual in almost all the complaints for which you recommend them.

DYSENTERY — DIARRHEA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PHLE have had a long trial in my practice, and I hold them in esteem as one of the best aperious I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small does, for billous dysenlery and diarrhose. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION-WORKS-SUPPRESSION. From Mrs. B. Stuart, who practices as a Physician and Midself on Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients." constipation — Costiveness.

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Fampha, Montreal, Canada.

Too much cannot be said of your PILIS for the cure of costineness. If others of our fraternity have found them as efficacions as I have, they should join me in proclaming it for the benefit of the multitudes who suffer from that complaint, which, although had enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your PILIS affect that organ and cure the disease."

originate in the liver, but your PILIS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS
— RIEUMATISM — GOUT — NEURALGIA.

From Dr. Excisie Hall, Philadelphia.

"You were right, Doctor, in saying that your FILIS purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that staguate in the blood, engondering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADLOHE — NICH HALDAUE — FOR SEAL

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS — FITS — &C.

From Dr. Educard Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you what complaints I have cured with your Plus better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Plus afford us the best we have, I of course value them highly."

By Most of the Pills in market contain Mercury, which, although a valuable remedy in skillul hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARENINSS, ASTRMA, CROUP, WINCOTING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best relieves of the afficient from the low caping of the American the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, Curnar Perronal is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

FIRE INSURANCE.

THE MUTUAL FIRE INSURANCE COMPANY
of the District of Columbia offers to the property owners of the District the cheapest and as safe means of insurance against loss by fire as any other company, as will appear by an examination of its principles.

The fact that all of the Insurance Companies of the District are declaring large dividends to their stockholders, at once shows the great profit on their premiums, and the consequent saving to persons insuring with this company.

The actual cost of insurance in this company the past year has been but nine cents on each \$100 for first-class property, and on other property in proportion.

A CARD. TO THE CITIZENS OF THE DISTRICT.

IN ENTERING OUR NEW BUILDING, WHICH
we have just taken possession of, we return our
sincere thanks to the people of Washington and
Georgetown, for their liberal patronage, and we in
part as a return have erected a Spacious Building,
which will be an ornament to the city, with a lage
and airy Saloon, with all the convenience and comfort
of our customers; and in the establishment are all
the necessary arrangements for manufacturing and
encouraging of Heme Industry, and by a strict attention to justice and integrity, we hope to give satisfaction to all.

WALL & STEPHENS,

WALL & STEPHENS, No. 322 Penn. av., bet. 9th & 10th sts.

AT COST. HAVING DETERMINED TO A T COST.—HAVING DETERMINED TO confine our business exclusively to the cosch and cabinet branch of the trade, (including Bar Iron and Steel,) we offer our present stock of BUILDING-HARDWARE, CUTLERY, AGRICULTURAL GOODS, &c., &c., AT COST, to close out.

All such goods must positively be sold, and if not entirely closed out by the 15th of December will be entirely closed of at suction, to make room for another class of prechandise.

An examination of prices will convince purchasers that on such goods there is chance for a good investment.

ment.
With increased facilities in the branch of the trade to which we shall bereafter devote our attention, both as to quality and quantity, we solicit the increased patronage of consumers, in full confidence that prices will be satisfactory.
